

Personal development, including strategic planning for supporting wellbeing and health			
What?	Why?	How?	When?
Develop the school's wider arts curriculum (music, art and design)	Since Covid, we have been working hard to close gaps in learning for the core subjects. Now that we have made great progress in this area, we are turning our attention towards the wider curriculum. The arts have many benefits for children, from promoting creativity and developing self-esteem, to supporting pupils' mental health	<ul style="list-style-type: none"> • Make links with local arts groups (songfest, local artists, PK Porthcurno, Minack theatre etc) • Set up a timeline of events taking place across the year and allocate to different year groups • Prioritise time for rehearsals and visits as needed. 	Ongoing throughout the year.
Continue to build our wider sports opportunities to give as many pupils as possible chances to experience	We are very aware that whilst Sennen's location has much to offer, we are also limited by its remoteness. Our aim is to introduce children to new sports and skills, and signpost them to where they can continue to do the things they enjoy. We hope that this will encourage our children to be active, healthy citizens.	<ul style="list-style-type: none"> • Miss Clackworthy will make contact with local sporting groups to gauge interest in coming and supporting the school. • Once all responses are in, we will create a long term plan for the year, ensuring coverage across each class and giving equal opportunities for all. • Share and promote with the community • Share successes from each club with the community, including signposting to pupils who show particular promise with a sport 	Ongoing throughout the year
To increase the pupils' opportunities to be active citizens in the local community	Sennen pupils are so lucky to be part of a wonderful, thriving school community. In order for that community to continue to thrive, we need to equip children with the leadership skills they require to lead and bring about change. The community of Sennen needs active and engaged participants to ensure that it continues to grow and develop. We want our children to be passionate about Sennen and care for, nurture and develop their environment.	<ul style="list-style-type: none"> • Termly whole-school events or class events which promote children to being good citizens and look after their community. • Eco-reps and school council to organise and find opportunities for events where Sennen children can be recognised for their citizenship in the community. • Arrange and attend local beach Cleans/Litter picks 	Ongoing throughout the year
To raise aspirations and futures for children, by making sure that they are aware of opportunities for their future.	We want our pupils to be acutely aware of the wealth of opportunities that the world has to offer to help peak their interest and get them thinking out their aspirations.	<ul style="list-style-type: none"> • Identify what career opportunities are there and link to topics. This could be having a visitor in (e.g. police officer, conservationist) • We are taking part in a careers pilot called 'Start Small Dream Big'. This involves taking part in training and working with local businesses to help raise aspirations. • Utilise local and wider county knowledge and offer opportunities for year groups to visit or have visitors come to school to talk about different career options. 	Ongoing through the year
